

Threaded thermometer With plug connection Model TF35

WIKA data sheet TE 67.10

for further approvals
see page 5

Applications

- Compressors and pumps
- Mobile working machines
- Refrigeration technology
- Heating, ventilation and air-conditioning
- Machine building

Special features

- Measuring ranges from $-50 \dots +250 \text{ }^{\circ}\text{C}$ [$-58 \dots +482 \text{ }^{\circ}\text{F}$]
- Very high vibration resistance
- Compact design
- Electrical connection via plug connection

Description

The model TF35 threaded thermometer is used for temperature measurement of liquid and gaseous media in the range $-50 \dots +250 \text{ }^{\circ}\text{C}$ [$-58 \dots +482 \text{ }^{\circ}\text{F}$].

The integrated thermowell with threaded connection enables direct installation into the process. Depending on the requirements, the thermowell can be selected from brass or stainless steel. By default, the TF35 thermometer can be used for pressures up to 50 bar [725 psi]. The directly mounted coupler connector ensures simple commissioning of the thermometer.

Lead resistance effects

With the 2-wire connection, the lead resistance of the connection lead affects the measured value and must be taken into consideration.

0.162 Ω/m (guideline value for copper cable with cross-section 0.22 mm²)
Example Pt100: 0.42 °C/m

Operating conditions

Ambient temperature range	<p>Due to short installation length there is a risk that the temperature at the connector will rise up to an inadmissibly high value. This absolutely must be taken into account when designing the measuring location. The temperature at the connector must not exceed the mentioned temperature range.</p> <p>→ For ambient temperature ranges, see table “Electrical connection”</p>
Static operating pressure	Max. 50 bar [725 psi]
Vibration resistance per IEC 60068-2-6:2007	Depending on the design, mounting situation, the medium and temperature To 30 g
Shock resistance per IEC 60068-2-27:2007	Depending on the design, mounting situation, the medium and temperature To 500 g
Ingress protection (IP code) per IEC 60529	→ Ingress protection, see table “Electrical connection”
